

****Families & Friends of Cameron Woods****

3/24/20

Hello Everyone-

I'm adding this update in place of our current calendar page for the time being until things get back to normal. Cameron Woods continues to be under a "visitor restriction," which means each resident may have one caregiver enter the building (which can be a family member) who may attend to their needs. If you do need to visit, please limit yourself to only your resident's room and try to keep a safe distance (>6'), away.

Each person coming in the building must sign in and have their temperature checked upon entry. We are also taking temps of all staff on duty as well as sanitizing common "touchable" areas 2x daily.

As for the residents, we are not allowing groups of more than 10 to get together, encouraging the residents to stay 6' apart whenever possible. We started serving our meals "room service" style to avoid the large group in the dining room. All residents are having their temps taken 2x a day, and we will contact the individual family if there is ever an issue (mentally or physically) that comes up.

With so many "unknowns" during this time, our staff are doing our best to keep our residents safe and secure. Please contact your resident by phone whenever you can and offer encouragement to lessen the stress everyone is feeling. If your family would like to contact them on the internet via SKYPE, please give us a call at 260-624-2197 8am-4pm and we will make that happen – they need your family's support.

Many thanks for your encouragement during this difficult time. It's a new world.

- Brad
